8-Day Bible School Held at Irricana

On December 25, twelve Arrowwood people went to Irricana for an eight day Bible School. The return trip was made on Friday of last week. There was quite a representation such day from the Irricana triently making quite a large group altogether. Twe courses were taught. The Bible geography class recited three times such day. The class in worship, taught by Miss Grace Brubaker, recited twice such day. The interest and entitude were at a high pitch throughout this short term of school. Quite a number of papils did very excellent work. Several excited work. Several extending purties and a watch party sustained the social life of the group. Some of the young people said this was the most enjoyable vasation they ever had.

Better Seed --- Better Crops True-to-variety crops yield better and gradhisher bears being True-to-variety crops yield better and grade higher, beace bring in more money to the producer. Good seed will produce such better crops. Our Company makes available to farmers, at cost, at each one of its elevators, some of the very best Registered and Certified seed of the standard recommended varieties.

Disease and Death and scientists have said more than once recently changing over this time to make the many said more than one recting the techniques and the many said more than one recting the techniques and the first of their work have far outrum many ability to turn them to immediate use in enrichment of everyday life. This, it is said, is largely due to the lack of sufficient purchasing, power.

"Dis general premise is undoubtedly correct. Discoveries in the scientification of the contraction of the contract

— This general premise is undoubtedly correct. Discoveries in the scientific sealm during the past decade have been overwhelming in number, scope and future potentiality, and not the least interesting and important is the last-mentioned. For, experience shows that every new discovery opens up wide visitas for future research, paving the way for further discoveries and yielding visitions of more and greater uses which the earlier experiments can be made to yield for the confrort and welfare of humanity. There is, at any rate at present, no cull de sac in the scientific field.

any rate at present, no cul de saie in the scientific held.

Not only is likere no apparent terminal, but the more the scientist and research worker reveals, the more is he assured that he knows very lithad so far the surface has been barely scratched, and that the relating yet to tincover and conquer are almost illimitable. The finite knowledge of the present points far into the infallite with inchantible treasures yet to find.

research worker reveals, the more is pe assured that he knows very little, that so far the surface has been barely scratched, and that the relating yet to unover and conquer are almost illimitable. The intite knowledge of the present points far into the inflinite with inexhaustible treasures yet to find. While this is true in all fields of scientife discovery, in no aphere is it will be the property of the similar bare and present part of the property of the

Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used "milk of magnesia," doctors, for over 50 years, have said "PHILLIPS" Milk of Magnesia — the safe remedy for your child."

for your child."
Remember this — And Always Say
"Phillips" When You Buy. You
child deserves it; for your own peace
of mind, see that you get it — Genuine Phillips' Milk of Magnesia.
Also in Tablet Form:

Phillips' Milk of Magnesia Tab-lets are now on sale at all drug stores everywhere. Each tiny tab-let is the equivalent of a teuppoundul of Gen-uine Phillips' Milk of Magnesia. PHILLIPS' Milk of Magnesia

Infantile Paralysis

Rockefeller Institute Reports Method To Deal With Scourge Discovery at the Rockefeller In-stitute of a nose wash which protects monkeys from infantile paralysis and is now ready "for trial in man" was reported to the Society of American Bacteriologists at its opening session

Bacteriologists at its opening session in New York.
A second, entirely different sort of infantile paralysis preventive found in vitamin C, the vitamin from cabbage and lettuce was reported from Columbia University. The vitamin at Columbia prevented infantile paralysis in monkeys, but under circumstances so peculiar that the vitamin is not yet ready for trial for children.

Most public schools in Sweden are equipped with bathtubs.

Wooden horses are used for prac-tice purpose by polo enthusiasts.

4 10 5 TIMES

MORE QUICKLY DIGESTED THAN COD LIVER OIL

Science has discovered why Scott's Emulsion of Cod Liver Oil is so much more beneficial than plain Cod Liver Oil. All plain oils are hard to digest; they must be hard to digest; they must be mulsified in the stomach. We emulsify the oil in our Laboratories hence it is ready for almost immediate digestion and assimilation.
